

Errata for Second Printing of
Introduction to Machine Learning, 4th Edition

Ethem Alpaydm

March 20, 2023

1. (p. 130): In the last equation at the very bottom of the page, λ_i should be in square root. (Bertan Badur)
2. (p. 134): Line 12 from the top of the text should read “reducing the number of parameters from $d(d+1)/2$ to $d \cdot k + d$.” (Bertan Badur).
3. (p. 318): In the last equation of the page, in the summation, l should start from 1, and not 0. (Bertan Badur)
4. (p. 319): In the middle of the page, in the equation defining e_{2l}^t , v_i should be v_{il} . (Mahir Atmıř)
